The YUVRAJ TVS has donated 1.5 tons of maize flour to the Central Government Body Administering Kampala City to support the Children who previously lived in the streets and but due to the lockdown are now temporarily housed at the Nakivubo Blue.

The donations will help in the upkeep of the street families during these uncertain times. There has been immense support from members of the public during this period and we are grateful. We encourage individuals to come together and give back to their communities in whichever way they can do it.
